Ideas for MONITORING STUDENT ACTIVITY

Check students' understanding pre-lesson

- Students input answers (and working/notes) into school LMS
- Conduct a short quiz using meriSTEM questions at start of class
- Students submit study notes
- Students must bring a question to class

Support students to be independent learners

- Regular in-class quizzes
- Spot-check learning journals
- Explicitly teach study note expectations
- WRSQ: Watch, Summarise, Reflect, Questions
- Study notes as exit tickets
- Students annotate video transcripts

Assessment

- Students screenshot progress page
- Students screenshot questions answered
- Use direct meriSTEM questions in the exam (and tell students that you will)

meriSTEM
